

Jenny Ye - Harvard College 2013
Computer Science, Secondary in Ethnic Studies, Chinese language citation

School Projects:

<http://memoryoffirsts.org/index.html>

A crowdsourced project of earliest memories associated with several emotions, and when and where they occurred. We used Processing to build an interactive with these memories.

Currently working on:

The Utopia Project – I am a research assistant for the Radcliffe Institute Fellowship Program working with Professors Henry Turner (teaching English literature at Rutgers) and Radhika Nagpal (teaching computer science at Harvard) on translating Sir Thomas More's *Utopia* into an interactive simulation.

New York Public Radio WNYC Data News Team:

Ohio Manufacturing & Swing Counties (Map)
